PROFESSIONAL SUMMARY

Information Systems Engineer with over two years of experience in software development, focused on front end and able to work across back end and databases. Experienced in API design, application deployment with Docker, Linux server administration, and leading teams with agile methodologies (Scrum). Co-founder of a software development company serving real clients.

EXPERIENCE

Co-Founder & Full Stack Developer | Knotfix **Feb [year] – Present**

- Co-founded a software development company with two partners, responsible for development, sales, and marketing.
- Delivered 5 projects for real clients in roughly one-month delivery cycles, using Scrum and staged releases.
- Built Luck Dream, a raffle platform for selecting and purchasing numbers, with an admin panel and automated email notifications.
- Built a management system for an NGO that centralizes finances, donations, payroll, and fiscal year closing.
- Collaborated with a human resources partner on Censuma, a SaaS for workplace climate studies that turns surveys into quantitative results using scientific models.
- Designed and developed websites to strengthen clients' digital presence (Magic Place and Studio 27).

Full Stack Developer | 4Geeks **Jul 2025 – Nov 2025**

- Developed full stack administrative modules that streamlined data management and reduced operational time.
- Led agile planning as Scrum Master and developer, preventing delivery delays.
- Improved usability and accessibility through UX/UI adjustments and responsive design, and deployed applications with Docker.

Software Developer | ExporPack S.A. **Jul 2024 – Jul 2025**

- Co-developed an agricultural management system to track sugarcane and melon plots, irrigation, and supplies, using React, Tailwind, .NET, and SQL Server.
- Defined workflows and API integrations aligned with real business processes.
- Managed requirements and coordinated the team with Scrum to meet deadlines.

EDUCATION

Licentiate Degree in Information Systems Engineering, Universidad Nacional de Costa Rica (UNA) | In progress

Diploma in Software Development, Universidad Nacional de Costa Rica (UNA)

Technician in Business Informatics, Colegio Técnico Profesional Fortuna de Bagaces
